PROALCA (II) - ENERGY	.PROALCA II is the follow-on activity. The Energy component promotes greater private sector investment in energy. As such, it improves the foreign investment incentives generally and builds up necessary institutional, legal and regulatory infrastructure for regional energy integration. USAID is aiding Central American governments in designing and developing of more open and competitive energy regimes which encourage private sector participation. Direct technical assistance and training focuses on the design and implementation of more liberalized and regulatory frameworks. The implementing partner is the PA Consulting Group. Funded and implemented by USAID/G-CAP.	Competition Policy & Foreign Investment	360,000
		Gov/Transparency & Inter-Agency Coord.	90,000
		Activity Total	450,000
PROALCA (II) - LABOR	PROALCA II is the follow-on activity. The Labor component supports efforts to improve the functioning of regional labor markets while strengthening the protection of core labor standards. Enhanced competitiveness in global markets requires that Central America improve the functioning of its labor markets while also strengthening of core labor standards. Improved labor-management relations are essential to achieve the total quality production required by a global marketplace. The following interventions will be promoted: (1) labor ministries’ capacity will be enhanced; (2) competitiveness of the region’s labor force will be increased; and (3) harmonization of labor laws and regulations in the region. The grantee is SIECA. Funded and implemented by USAID/G-CAP.	Human Resources & Labor Standards	60,000
PROALCA (II) - TRADE	PROALCA II is the follow-on activity. Trade expansion requires that Central America increase its access to outside markets, and thereby the demand for its products, through the negotiation and implementation of reciprocal bilateral and multilateral free trade agreements. This means full compliance with the commitments made by each of the countries upon joining the WTO in 1995 and the yet-to-be-defined requirements under the FTAA. To implement these actions, trade negotiators and administrators need to be trained. Moreover, a much broader base of support will be needed to overcome protectionist objections and further reduce trade barriers. The grantee is SIECA. Funded and implemented by USAID/G-CAP.	WTO Awareness	189,000
		Physical Infrastructure Development	63,000
